Unterstützung, die ankommt.

GENERAL INFORMATION

Offer and support for families,
young people and children

Need child care for your child?

In Trier, we offer a wide range of child care services which are constantly being improved. If you are looking for a place for your child you can ask at the various services or contact the Youth Welfare Office.

Want to meet other parents and learn something about child development?

You can find new contacts at the family education centres where it is possible to join parent-children meetings.

Where can young people and children meet others of their age?

The youth centers of Trier offer a lot of sports and cultural activities.

What does public space look like?

The Trier Children's Bureau (triki) has a lot of information for children and their parents. The town creates new places for children to enjoy, through a project called 'Spielraumplanung'.

Is there any financial support available for child education?

In the Youth Welfare Office, you can obtain information about what financial support is available and what you have to do to get it.

If there are problems in the family that you can't solve on your own:

In Trier there are a lot of services that help you with solving your problems. The counsels are mostly free-of-charge.

What is the general social service (Allgemeiner Sozialer Dienst) able to offer you in help and education?

A large team of educators and other qualified experts is on hand to help. Every single one of them is responsible for a certain area of the town. This service supports you with any questions you may have concerning the education and development of your children and it's also possible for family members to ask for help.
